

# Epilepsy Conference Toronto

## The Andrews-Reiter Approach

October 14-15

University of Toronto, Ontario

[EpilepsyConference.com](http://EpilepsyConference.com)

Join us at the University of Toronto for an extraordinary event: a conference focusing on the **Andrews-Reiter approach**, a remarkably successful, peer-reviewed medical treatment for epilepsy.

This conference is a rare opportunity to hear from the doctors who pioneered this medical treatment: **neuropsychologist Donna Andrews** and Harvard-trained **neurologist Joel Reiter**.

Other speakers include neurologist Siegwald Elsas, who replicated the success of the Andrews-Reiter treatment; Rosa Michaelis, who completed a comprehensive peer review; and Joshua Kors, an award-winning health reporter and one of many former Andrews-Reiter patients to see a dramatic drop in the frequency of his seizures.

This conference is for families, patients, neurologists and other medical professionals interested in this breakthrough treatment for epilepsy. Learn more at [EpilepsyConference.com](http://EpilepsyConference.com).
